Uday Fakie

Full Stack Developer

Summary

I'm a Junior Full Stack developer with experience primarily with JavaScript and other web technologies. I'm a creative individual who likes to design and build new products and features. I'm hard working and am very passionate about technology. I'm a fast and self-learner. Also with big picture Thinker and am not tied to any particular programming language or technology and I'm open to learning anything required for the job.
